

Lauramusic Studio Safety Guidelines For In-Person Lessons (Beginning July 5, 2021)

1. **Schedule:** There will be a 10-minute gap in-between students so that only one student and the teacher will be in the studio or the entry at a time.

2. **No Waiting Area:** Until further notice, there is no waiting area in the house or the studio... students should arrive at their appointed lesson time and leave promptly when the lesson is over. Parents, as we are limiting contact, please plan to drop the student off for the lesson while you run errands or wait in your car. If you need to communicate with the teacher, please text or email. Text: 206-349-0577, email: lauramusic@comcast.net

3. **Upon arrival:** students should ring the doorbell and then Laura will let you in. We now have an indoor cat (Simba), so we have to be careful that he does not escape through the front door.

4. **Symptoms.** Please do not come if student has had a cough, a fever, shortness of breath, difficulties breathing, flu-like symptoms, gastrointestinal upset, or experienced a loss of taste or smell in the last 14 days. (In this case, please plan for an online lesson, or alternately, Laura will create and email a practice plan and lesson.)

- 5 **Exposure to COVID-19:** Please don't come to lessons for 14 days if you've been around someone with COVID-19 for more than 15 minutes, closer than 6'. (In this case, please plan for an online lesson, or alternately, laura will create and email a practice plan and lesson.)

6. **Hand Washing:** Students should wash hands with hot soapy water in the music studio bathroom and use hand sanitizer before the lesson. (hand sanitizer is provided)

7. **Masks** are required to be worn by students and the teacher until further notice. Students should arrive with their face masks on.

8. **Cleaning/Disinfecting Schedule:** The piano, door handles, bathroom fixtures, and commonly touched surfaces will be disinfected between lessons.

Other Safety Considerations

*Laura, Joe, and Ruby have all been fully vaccinated, but remain vigilant about their health and safety.

*The windows of the studio will remain open for maximum ventilation. The studio is now equipped with an air purifier/HEPA filter, as suggested by the King County Department of Health.
